- Date: Friday 11:48 13.01.2006 Settle down people. I stopped listening to 2ue awhile ago. Jim Ball on 2GB is excellent overnight and keeps you very much up to date. His show delivers what people want and help stimulate the mind at night. Although I did listen to John Kerr for quite some time, his voice is not real good and maybe someone could explain that "thirteen (13)" is one word. It used to drive me nuts - Thir Teen Thir Teen Thirty-Two

Date: Monday 09:25 09.01.2006 I don't think Kerr should return.
I think he is ignorant & narrow minded. Worse, he cultivates his narrow minded stupidity on the masses.
Just look at what 3/4 of his blinkered idiot callers have to say.

Sunday 13:07 08.01.2006 The Top10 reasons John Kerr should be allowed to return to weekdays.
10. John comes across as friendly.
9. John has the patience of a saint.
8. John actually cares about his listeners.
7. John has kept his listeners entertained with on program shows like Flicks & Things and Antiques & Collectables and heaps of really cool interviews.
6. John is use to the midnight to dawn hours weekdays.
5. John goes out of his way to help callers in need.
4. John has built up a trust and respect from his callers, even the lunatic fringe callers (that leak over from Stans show) respect him because they always call back.
3. John's voice is a welcome part to crossing the midnight hour and no one elses voice will do.
2. John has a natural charm that can both annoy and captivate listeners at the same time.
1. John's the number one choice for weekdays, hands down.
So from all the 2ue midnight to dawn family out there and we are talking multitudes please don't put us to sleep (and that is in no way a slur to Stuart Bocking, I think Stuart does have a style but he doesn't have the open friendliness we get from John) by taking John away from weekdays 2ue.
John is a part of our listening lives, simple as that.
John Kerr is the natural one, no substitutes or artificial voices please.
Tony In Brisbane.

Friday 06:18 30.12.2005 I've done some research and have found that 20% of 2UE's listening audience is from outside Australia. Since John Kerr *is* overnight radio (afternoon radio for us here in America) it would seem that 2UE are committing suicide. I listen to John because he is genuinely interested in the people in his audience--he's not just another radio voice. 2UE will soon regret this decision. I will miss John and will listen elsewhere.

Friday 02:51 30.12.2005 Hiya.
I am so saddend Personally for the way that the 2ue management have treated not only both John but also even more so the way that George Gibson was treated by not even giving him the chance to even say goodbye to all his listeners.
I have personally sent in my complaint letter as Samuel knows.
And Lyne who just recently lost her husband Paulie ...one of his most loyal listeners is acually meeting the management to lodge her case about this to Mr Sheppard on January the 9th..and she want's all of our support.
But i do have some good news ...i have heard that George will be working for another radio station ...but i am not sure which one yet...but he will be on this weekend somewhere...so i will try and find out.

Hug's and sweet kisses.
Charity Leanne Kerr.

Even though i've never called up John due to my quiet nature. He has provided me with a comforting voice during many of my sleepless nights. It will be a loss to radio as management cuts his airtime. The greatest feature about John is his integrity and equality towards all his audience and John if you do ever read this, you will be sadly missed by all. Best wishes for the New Year everyone.

Stuart Bocking is totally hot! How dare you pay out on him! Good on 2UE for finally putting someone under the age of 70 on air!

Mate, What are 2UE thinking?

A cult figure of overnight radio, it's been a year since those disrespectful radio stations dropped him in favour of a music feed from the Gold Coast, But he's still battled on.

The John Kerr audience is dedicated, we try to tune in whenever we can no matter which signal is best.

Here in Victoria, we try 3YB from Warrnambool, or 2AY from Albury. They're the only ones close enough to get resonable signal, but on the odd occaision get 2CC from Canberra, 2LT from Lithgow (when they're not suffing around with automation) and of course, 2UE from Sydney

They've taken the show away from many regional stations already, but you can't take the cult figure away from the show

Vote for the cult figure to stay

Iam a regular listener to 2UE at nights here on the Gold Coast,and to move such a dedicated and well known presenter who 'has been the voice'between midnight and 530am every morning for the past 12 years,really defies logic!

I was also appalled that George Gibson was moved off weekends.

Shame,Shame on you 2UE!!!

keep john kerr on weekday mornings. he attracts a lot of listeners for a lot of different reasons, a lot of which would be missing if you took him out of the 5 day a week lineup.

keep him on!!!!!!!
keep him on!!!!!!!
keep him on!!!!!!!

27.12.2005 Stewart Bocking is a very bad choice.
He was telling people about this (including me) in private email responses as far back as November.

Bocking has one of the most annoying tones of any announcer anywhere.

What is 2UE thinking??

Give John Kerr all the credit he deserves for the effort he had put in on this difficult shift.

I'll be switching over to 2GB..
